

Notice to All SHIIP Clients

SHIIP makes information on health insurance more widely available and understandable to Nebraska seniors. While neither SHIIP nor the SHIIP Volunteers can advise you on the purchase, renewal or termination of specific insurance products or programs, they can give you helpful information on how you can compare those products and the services they provide.

Health insurance transactions often involve the most important and costly decisions which you can make. You may need to consult an attorney, accountant, government office, public service agency or other information resource before making such a decision.

SHIIP and its volunteers do not endorse any particular insurance policy, program or company; nor do they provide legal advice or make decisions for you. SHIIP can give you information and assistance to make those decisions easier. SHIIP, its volunteers and the State of Nebraska are not liable for actions of any kind arising at, of, or, based on the information or assistance provided through this program.

All information and counseling sessions will be kept confidential. The identification information (i.e. Medicare number, name, address, etc.) you provide to SHIIP shall be held in strict confidence and will only be used to assist you with your Medicare and/or Long Term Care needs.

Should you have any complaints or suggestions for making SHIIP more responsive to your needs, please contact the SHIIP office by calling (800) 234-7119.
